3. Whom to Contact ?

Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) was launched on 1st July 2015 with the motto of 'Har Khet ko Pani' for providing end to end solutions in irrigation supply chain, viz., water resources, distribution network, farm level applications and improving water use efficiency. Micro irrigation (MI) is being popularized to ensure 'Per Drop – More Crop' (PDMC).

Components of PMKSY

PMKSY combines irrigation expansion with water-use efficiency through four strategic components covering the entire irrigation value chain.

- **Accelerated Irrigation Benefit Programme (AIBP):** It focuses on the rapid completion of ongoing major and medium irrigation projects, including national projects. AIBP supports the timely creation of irrigation infrastructure and strengthens water availability for farmers. In 2025-26, the government has approved the Modernization of Command Area Development and Water Management (M-CADWM) as a sub-scheme of PMKSY-AIBP. The government has allocated an initial outlay of ₹1,600 crore under this component. It complements AIBP by delivering water from major and medium irrigation projects through pressurized piped and micro-irrigation systems.
- **Har Khet Ko Pani (HKKP):** It focuses on creating new water sources through minor irrigation (both surface and groundwater) and expanding cultivable areas under assured irrigation.
- **Watershed Development**: It enhances the productive potential of rainfed and degraded lands through integrated watershed management.
- **Per Drop More Crop (PDMC)**: It was an integral component of the PMKSY from 2015-16 to 2021-22, with a strong focus on maximizing water use efficiency at the farm level. From 2022-23, PDMC is a part of Pradhan Mantri Krishi Vikas Yojana (PM-RKVY). The scheme promotes micro-irrigation technologies such as Drip, and Sprinkler irrigation Systems.

Benefits to farmers

S.No	Types of Assistance	Quantum of Assistance	Schemes
	Assistance for soil management		
1. Water Harvesting and Management			
1.1	Water harvesting system ,Diggi for individuals/community	50% of cost (Construction cost - Rs. 125 for plain/ Rs. 150 per cum for hilly areas) limited to Rs. 75000 for plain areas and Rs. 90000 for hilly areas including lining. For smaller size of the ponds/ dug wells, cost admissible on pro rata basis. Cost for non-lined ponds/tanks will be 30% less	PM-RKVY Pradhan Mantri Rashtriya Krishi Vikas Yojana (RKVY)|

1.2	Water harvesting system for individuals	50%of cost (Construction cost-Rs.125 for plain/ Rs. 150 per cum for hilly areas) limited to Rs. 75000 for plain areas and Rs. 90000 for hilly areas including lining. For smaller size of the ponds/dug wells, cost admissible on prorate basis. Cost for non-lined ponds/tanks will be 30% less.	do
1.3	Construction of Tube wells/ Bore wells (Shallow/ Medium) only in areas which are not categorized under overexploited, critical & semi-critical zones by Central Ground Water Board	50% of the total cost of installation limited to Rs.25,000/- per unit.	do
1.4	Restoration/Renovation of small tanks	50% of the cost of renovation limited to Rs.15,000/- per unit	do

1.5	Recharge of defunct bore well	50% of the cost of recharging limited to Rs.5000/-per unit	do
1.6	Pipe/pre-cast distribution system	50% of the cost of system limited to Rs. 10,000/-per ha	do
1.7	Water Lifting Devices (Electric, Diesel, wind/Solar)	50%of the cost of installation limited to Rs.15,000/- per electric/diesel unit and Rs. 50,000/-per solar/wind unit	do
1.8	Petrol Irrigation Pumps-upto15 hp	Rs.10000/unit or 50% of the cost of the system (including installation) whichever is less	do

2	Drip Irrigation	Financial assistance up to 55% for small & marginal farmers and 45% for other farmers. Indicative cost of drip Irrigation system ranges from Rs. 24586 to Rs. 127501 per hectare depending upon the spacing of drip lateral pipes and land size. Maximum permissible assistance will be restricted to 5 hectare per beneficiary.	Per Drop More Crop component of Pradhan Mantri Krishi Sinchayee Yojana (PMKSY)

vikaspedia.in

3.	Sprinkler Irrigation	Financial assistance up to 55% for small & marginal farmers and 45% for other farmers. Indicative cost of sprinkler irrigation system ranges from Rs. 19542 to Rs. 24194 per hectare depending upon the spacing of sprinkler pipes, type of sprinkler system and land size. Maximum permissible assistance will be restricted to 5 hectare per beneficiary.	-do-

Whom to Contact ?

District Agriculture Officer / District Soil Conservation Officer / Project Director, ATMA/ District Horticulture Officer.
